Logistics Manager

Mt Wellington

Roche Diagnostics NZ Ltd is part of the world's premier medical diagnostics organisation and is the leader in laboratory diagnostics systems and diabetes management products in New Zealand. They are seeking an experienced Logistics Manager to manage their busy warehouse and distribution departments at their Mount Wellington site. Reporting to the Operations Manager you will lead a team of three and manage all inbound and outbound deliveries and stock and non stock movements including exports. Experience in warehousing and logistics is essential. This is a key role to ensure the efficient operation of the supply chain. A proactive hands on approach is essential, attention to detail with a focus on achieving receipting and despatch targets. You must be experienced in working within a fast pace environment. Experience in system planning, implementation and electronic warehousing systems are essential. SAP experience would be preferred. This is an excellent opportunity to expand your career within an exciting industry.
