## Time to make a switch?

Our client is a full service advertising agency with an honest values based culture and a work/lifestyle philosophy that means great people retention while still delivering outstanding customer service. So you will be sitting in the creative space, and working alongside some seriously creative minds, but actually driving the serious business of managing the entire customer job order, from taking the brief (yes you will be out there with clients) to the delivery of the material. While this is a well established agency there is a great opportunity to reassess existing procedures and make your mark, taking the lead in the production space, managing work flow and take ownership of the A-Z of the studio process. If you are ready for a change, call me and I can give you more details.

Please phone Beverley Coldham on 968 8471 or email your details to [beverley@jobswithsalt.co.nz](mailto:beverley@jobswithsalt.co.nz)
